I would just like to extend my thanks to the entire team at Gill Media, and a special thank you to Terri Everden for exceeding many of my expectations in creating the new website. This team of professionals, working together, has put together everything I asked for and exceeded my expectations in professionalism and communication.

Understanding that a website is not a turnkey marketing device, Gill Media continues to work diligently to improve my web page. Perhaps it should be referred to as “our” web page seeing that they truly have put forth a great effort to make it come together as seamlessly as possible.

I have worked with Gill Media for the last year, and their team has done a very nice job in the site layout, photo editing, and created a web page that I continue to get compliments on. I also am very impressed with the press releases that they have created for me. I honestly believe that the team at Gill Media extends this great service to their other customers.

In the next few months Gill Media should have **Holeyrail.com** nearing the top of the search engines, making it a very prosperous year for Ironsides Storage Solutions.

Once again, I would like to thank everyone at Gill Media for continuing to make this a success!

Sincerely,

Scott Thieman
CEO
